WHISKY

WELCOME TO OUR WHISKY COLLECTION, HERE AT PORT OF LEITH DISTILLERY

Sitting at the top of this wonderful, first of its kind (in the UK) vertical distillery - with unparalleled views of Leith and Edinburgh - you are in the presence of what we believe to be the most extensive selection of 'new wave' whisky in the world.

As a new distillery ourselves, we thought it important to champion youthful whiskies. A focus on distilleries - new and old - around the world producing exceptional spirit that can shine at any age seem to us an excellent way to create discussion about what's important in whisky. Age - while definitely a factor, and we have some old and rare malts to reflect this - is not the be all and end all when it comes to whisky. As such, we have compiled over two hundred whiskies under ten years old to show the depth and breadth of flavour, and exceptional quality, that can be found in youth.

This whisky list is arranged by flavour first and foremost, based on the character of a distillery in terms of its house style. Also listed next to each whisky is its region (either where its produced, as pertaining to single malt; or where its blending house is based), and its predominant cask type(s). Notes and interesting additional information have been added where appropriate.

The idea behind this is to help you find the flavours you're after - whether they be based in spirit character, cask influence, or both.

We hope this makes it easier - however if its all still a bit daunting don't hesitate to ask one of our staff or simply wander up to the bar for a look over the selection. Happy Dramming.

From the Vaults

We'd like to say we're at the forefront of new wave whisky in Edinburgh, and yet 40 years ago the Scotch Malt Whisky Society was established right here in town. A funky, swanky members club that bottles Single Cask Single Malts chosen by a democratic tasting panel that takes all eyes off the distillery to focus exclusively on flavour. We're privileged to be their first ever bar collaboration, so here's a flight for those who haven't forgotten that whisky's supposed to be fun.

RICH & FULL

Here are whiskies that, from their inception, display full bodied and intense characteristics. Whiskies that could be described with dark fruits, leather, tannins, nutty, spices or as meaty, savoury, and heavy.

Often these malts are paired with sherry, port or wine casks to stand up to their already hefty nature.

In recent history this has been the party piece of the west coast, however now we see peated releases coming from not just all parts of Scotland but all over the world.

Here you'll find the home of phenols, medicinal notes, barbecue smoke - and often maritime and coastal notes. To expand on the vagueries of 'smoky', we've also broken it up into light, medium and heavy.
